

Daily Synopsis

Date & Shift Time

Officer R. Hanna 1900-0700

Traffic:

The protestors drove from Canadian Tire and moved into the northbound lanes at Huron Church Rd at Tecumseh Rd W. The vehicles blocked WPS cruisers and opened the hoods of their vehicles. The local traffic heading northbound was at standstill. There were nine tow trucks from [REDACTED] Towing staged nearby if needed.

At 1930 hours, it was estimated that there were 125 vehicles stationary and 300 pedestrians including children.

The blockade group starts to shutdown Freshco Parking Lot using shopping carts, and vehicles preventing the movement of traffic off Huron Church to Tecumseh.

The protestors moved westbound on Wyandotte St W and blocked the entrance to the bridge at Patricia St. The convoy did not push further west on Wyandotte St W, however when WPS cruisers repositioned their vehicles to prevent the convoy from moving into the entrance. The protestors then blocked the entrance on foot so traffic was essentially at a standstill entering the bridge.

Due to the blockade on Wyandotte St W, side streets are backing up such as Wellington Rd.

The convoy managed to get vehicles access across the median into the northbound lanes on Huron Church Rd. There are approximately 5-6 vehicles blocking some of these northbound lanes.

Vehicles are also cutting across the dead end lane from Millen over the grass. They are moving onto Huron Church near CBSA.
